JGA

About Our Firm

Jon Graves Architects & Planners, PLLC was founded as Jon Graves Architects in the mid-1990s. Our firm philosophy centers on finding the most appropriate solution for each project opportunity. JGA's commitment is to stretch the bounds of opportunity to find a comprehensively supportable and sustainable solution for each given project circumstance. We take pride in our ability to offer professional services with respect for all project participants and ultimately strive to listen, learn, interpret, and create.

JGA is perhaps best known for our diverse project type experience and/or the diversity of our project solution types. Our project solving approach intends to work with any project challenge including new building typologies. Our emphasis on diversity support our role as the design and construction component to AB Concepts & Design, a Native American owned Architectural firm.
