

Chantelle Studio

PHOTOGRAPHER / HAIR STYLIST / MAKEUP ARTIST

San Francisco, CA

Chantelle started her career as a makeup in Montreal Q.C. Canada in 2002. After a few years of working as a M.A.C. makeup artist and freelancing in the fashion industry of the Canadian east coast she resolved to expand her creative horizons by incorporating hair styling into her tool belt. Starting from the ground up this self-made stylist had bigger dreams and in 2011 she decided to try her luck in California. She moved to San Francisco and added a degree in photography to her arsenal of talents.

Chantelle has always been drawn to the complexity of the human face and feels that as a makeup artist she has the power to help people see their own beauty more clearly. As a hair stylist she can frame that canvas and as a photographer she can capture and preserve that perfect pairing. She says "While I work on them I build relationships with the people whose face's I enhance. My artistic vision is to make my subjects feel great about themselves as themselves."

Chantelle has worked in just about every possible aspect of the industry as a stylist, and is now expanding her experience by incorporating her photographic career into the same far reaching variety of assignments. Chantelle focuses primarily on female subjects while growing her headshot, portrait and fashion reach.
