A Helsinki-based photographer with a passion for people and their stories. A documentarist at heart, I want to use my photography to affect change. □□My portfolio includes reportages for Helsingin Sanomat and its weekend supplement NYT, and publications including Kotivinkki lifestyle magazine and Me Naiset women's weekly.

My biggest work to date are two nationally photojournalism book projects Paperittomat (2010) & Karkotetut (2016) dealing with European immigration policies. Both projects aimed to raise public awareness about those living in the shadows of Europe and of those who have been expelled from EU Territory.
