Lead developer

Los Angeles
Jul 2008 - Present

joshfreese.com

UberDrummer/ multi talented musician Josh Freese's launch site for Album : Since 1972.

Used parts flash and ajax to create main site- installed TopSpinMedia iframe code on purchase pages.
created whole system so all pieces of varying technology worked together simply-

set up blog and tumblr /twitter/youtube updaters for josh* to easily update fans.

launch of site/ Since 1972 was VERY unique as the site has received massive attention . due to being picked up by wired and music press for use of the unique pricing set up:

on newyorktimes blog
on wired.com

Web developer

cottonwood , Az
Jan 2103 - Present

foureightwineworks.com

Wordpress site for Arizona Wine collective and presently working on back end to create POS system for wine ordering capabilities from site
