

# Karin Pringsheim

PHOTOGRAPHY

Buenos Aires - London

Since a little kid I was fascinated watching my father capturing images of our travels with his camera and then remembering those moments and sharing them with friends, showing them those recondite places. Years later, still a teen, I had finally my SLR, a Pentax SP-1000 Born and grew up in Buenos Aires, Argentina, I took then photography courses while studying Advertising and Art Direction. I worked for a Graphic Designer and did some freelance photography, specially books for aspiring models. Later on, in 2003, I had the opportunity to work in a Photography Agency, Bransch GmbH in Hamburg, Germany, for six months. After a gap of eight years, a workshop in New York with National Geographic and back with a digital camera, I started freelancing again.
